PROPOSALS

for publishing in the town of Hillsborot a Weekly Newspaper, TO BE CALLED

THE BECULATOR.

TO THE PUBLIC.

Ix consequence of the repeated solicitations of many of the citizens of the county, we have it in lage of Oxford to this place.

In taking this step, we wish it to be distinctly

understood, that we are actuated by no unworthy feelings of rivalry, or opposition to the powers that be. The veteran editor of the Recorder has long possessed our unqualified esteem and respect, cou-pled with the warmest wishes for his welfare and ccess. It is with no view, then, of interfer with his prospects that this enterprise has been determined on. There are something over three thousand voters in the county of Orange, and consequently a variety of tastes to be catered for; and we have been flattered into the belief, that out of that number, we can obtain a respectathat out of that number, we can obtain a respecta-ble list of patrons and supporters without crossing at all the path of our worthy friend, or seducing a single stray lamb from his flock. Believing this to be the fact, and being further assured that the cause which it has always been our pride to sus-tain would be materially aided by such a course, we have determined, so soon as a sufficient num-ber of subscribe's can be obtained to justify the

commencement of operations, to issue a weekly sheet at this place, to be styled Tux Regularon.

The Regulator will, of course, be devoted to the interests of the Whig Party, and to the support and diffusion of true Whig principles; but while we will use every HONEST endeavor to further and sustain our own good cause, we feel too proud of that cause, and too fully impressed with a belief in its eventual success, to be willing to acknowledge the necessity of enlisting either injustice or illiberality in its behalf.

We therefore assure our political opponents, that for all the purposes of fair and manly controversy, the columns of our paper will ever be open to them; having a perfect confidence, that when the attainment of truth is the object in view, the Whig cause has nothing to lose by the fullest and

Beside its political news, it will be our aim to make the Regulator a welcome visiter at every fire-side; a favored weekly guest; bringing with it Sage things, and grave, to puzzle years mature,

With lighter matter, for the tastes of youth. In short, a diligently cultured field for thought, where useful information, and general intelligence, will be found flourishing beside the flowers of literature; the whole made bright, from time to time. with sparkling gems of wit and humor. TERMS.

The terms of the Regulator will be \$2:00 if paid in advance; \$2:50 after three months; and \$3:00 if payment be delayed until the end of the year. No paper will be sent for a less term than six months, for which \$1:50 will be charged. Trusting to the assurances we have received, and to the known liberality of the citizens of Orange, we tender our project to our old friends ge-nerally, frankly soliciting their patronage and aid. JOHN CAMERON.

P. S. All those taking an interest in our enterprise, will confer a favor by calling the attention of their neighbors to the above, and forwarding the list of names obtained to the subscriber, at this place, as soon as satisfied that all have been applied to. Regular lists will be kept at the Post Office, at the Hotels of Messrs. Nichols and Palmer, and other points in the town. March 26.

Ten Dollars Reward.

ON the 16th instant the subscriber losned a BAY MARE to a man, whose name he does not recollect to earry him to Chapel Hill, on his way, as he said, to the Burnt Shop in the Hawfields, in Orange county. A boy was sent with him to Chapel Hill to bring the Mare back; but after arriving there he managed to evade the boy, and has carried off the Mare, together with the Bridle, Saddle, and Blanket. The Mare was a dark bay, about five feet high, and ten years old: she has a gald on the right shoulder, and a small piece off of one ear. The Man is about 50 or 55 years of age, indifferently dressed, of a dark complexion, and has a sear on his chin. He is a wacon-maker by trade, and has worked some time in Raleigh. I will give ten dollars to any person who will deliver the said Mare, Bridle, &c. to me at my residence, on the stage road, twelve miles this side of Raleigh; or six dollars if delivered to Major James M. Palmer in Hillsborough. JEREMIAH MORRIS.

plici and truth are stamped upon every law of the creation. The mighty worlds which roll in space of every degree of velocity and direction, are all governed by ATTRACTION OF MATTER TO MATTER.

This principle governs the human body Brandreth's Vegetable Universal Pills attract at impurities of the blood to the bowels, which organ expels them from the body. Attraction and disease are both units. All accidents or infections only effect the body in proportion as they occasion impurity of the blood.

The bowels for instance are costive—this

most important organ is closed-the consequence is a great accumulation of impuritie which as they cannot get out by their usual passage, are forced into the blood, occasioning impurity of blood. Thus, Pevers, Cholics, Rheumatism, Cooghs and Colds are often produced. But let Brandreth's Pills be used in such doses as will effectually evacuate the bowis, and health is restored at once.

Hot weather, by occasioning debility, pro-duces impurity of blood, from which arises Dy sentery, Cholera Morbus, Cramps to the bow-cle, febleness, pain in the back and hip joints,

Grief, great anxieties of mind, much watching, fear, had food, intemperance, residence near murshy land, tend in a very powerful degree to promote impurity of the blc od, which soon snows itself in Erysipolas, consumption, epcleptic fits, apoplexy, scurrey, fever and epeleptic fits, apoplexy, scurrey, fever and ague, derangement of the stomach and bowels, all which symptoms will soon be removed by parifying the blood with the Brandreth Pills.

All persons who do not fell well should use these Pills. No man was ever sick long
